Mr. Dennis Egan
President
Egan Marine Corporation
P.O. Box 669
Lemont, IL 60439

SUBJECT: DISPOSAL OF WASTE MATERIALS FROM THE EGAN MARINE
FACILITY IN LEMONT, ILLINOIS

Dear Mr. Egan:

On October 20, 1994 the U.S. Environmental Protection Agency and the U.S. Coast Guard visited your facility to investigate reports of oil leaking into the Chicago Sanitary and Ship Canal and to perform a Spill Prevention, Control and Countermeasure (SPCC) inspection. During the inspection we observed drummed wastes and spills of oily materials onto the ground at your facility. During the afternoon of the inspection you initiated cleanup actions of some of the solid materials that had been improperly stored on your property. The handling, storage, shipment, and disposal must comply with all appropriate local, State, and Federal regulations.

Please mail to my attention at U.S. EPA, copies of all manifests for wastes transported and disposed of from your facility since the inspection on October 20, 1994.

U.S. EPA Region 5
77 W. Jackson (HSE-5J)
Chicago, IL 60604

The manifests and any other shipping documents should be mailed to U.S. EPA upon receipt of this letter. Also please attach applicable laboratory analytical data to each manifest. Copies of manifests for future shipments of wastes observed at your facility during the inspection should be mailed to U.S. EPA upon shipment. If you have any questions please contact me at 312-886-4246.

Sincerely,

Leonard Zintak
On-Scene Coordinator
U.S. EPA Region 5
